Good afternoon MPJRA leadership,

We are moving into the next phase of the Weighted Caseload Study and will be convening quality adjustment panels to review initial case weights from the time study. These panels will focus on case weights identified for further review by the Judicial Resources Advisory Committee. This meeting's focus will be on the initial case weights for Probate judges.

We are seeking 1-2 experienced registers (preferable one juvenile register and one probate register) to participate in a remote meeting and provide insight as to the relationship between judicial work and probate register work.

If you would kindly share this request with your membership and send us one or two names of registers available to join no later than February 7, 2025, we would greatly appreciate it.
